

About Insecticides (India) Limited

Insecticides (India) Ltd. (IIL), BSE & NSE Listed Company is India's leading and one of the fast growing Agro chemicals manufacturing company. IIL has emerged as a front line performer with a top line of 552 Cr. last fiscal (2011-12) and is all set to grow the same this year.

The wide acceptability of IIL's Tractor brand – its umbrella brand of agro products signifies the company's deep connection with the farming community. The largest selling brands of IIL include Lethal, Victor, Thimet, Indan 4G, Hijack and Sharp. The company has also entered into Technical and marketing MoU with **American Vanguard Corporation (AMVAC) USA** to manufacture and market the product "Thimet" which is one of the premier brands of the agro chemicals market. IIL recently acquired Monocil, which is also the most popular brand in its category.

IIL has world class state-of-the-art production facilities with latest and automatic machines at Rajasthan and J&K. IIL also has technical synthesis plant to manufacture technical grade chemicals such as Imidacloprid, Acetamiprid, Dichlorovos, Lambdacyhalothrin, d-Trans Allethrin, Glyphosate, Butachlor and Thiamethoxam, providing it the competitive edge by backward integration. Looking forward to increasing demand, IIL has already started production from its two new production units at Dahej (Gujarat) and Udhampur (J&K) respectively. The strength of IIL is its distribution network spreads throughout the country.

Recently, IIL has joined hands with **American Vanguard Corporation (AMVAC) USA** and **Japanese Company Nissan Chemical Industries, Ltd.** adding some of the leading international brands like **Nuvan, Pulsor and Hakama**. IIL also established **R&D and technical centre** in JV with **Japan-based Otsuka AgriTechno Co. Ltd (OAT)** to invent new agro chemical molecules in India. Under this JV a 4000 sqm **R&D and technical centre** is being built in Bhiwadi, Rajasthan.
